

MBA Projects

Global H2O Solutions

Business Plan - Develop a business plan to introduce a completely new concept for reducing water pollution that occurs via storm drains and adversely affects our world's oceans, rivers and lakes.

Home of Special Spirit

Business plan - Develop a business plan to maintain sustainable growth of a therapeutic horseback riding program, now in its infancy. The goal is to develop a strategy to double-triple in size, specifically in riders, horses and volunteers in the next 3 years.

Mount St. Mary's College

Going Paperless - Determine the opportunities to 'go paperless' in the payroll department. Recommend changes in policies, technology and other changes that would need to be made to accomplish the reduction or elimination and develop a recommended work plan regarding change management.

Shiners' Hospital for Children - Los Angeles

Assess current promo/fundraising venue - The organization is looking for additional funding to maintain the levels of service that it provides. Identify whether the concert series have the potential to provide the visibility and potential donor base needed to assist in rebuilding and sustaining the endowment that the organization is reliant on for funding.

University Medical Center, Las Vegas, Nevada

Business Product line Analysis - Develop a methodology for determining the appropriateness/value of various services provided by the hospital. Identify and analyze the parameters to take into account and a process that would lead to a potential model/algorithm to help assess and prioritize each of the services. This model could be applied to service lines already in place or ones that the organization is contemplating to expand to.
