

MBA International Study Itinerary

Organizational leaders in the 21st century need to think globally. The Mount St. Mary's MBA immerses students in an international market as a complement to the study in the third semester. MBA students examine global competition in a nine-day guided exploration of business and life in China.

With a rapidly evolving economy and growing geopolitical influence, China holds many of the world's most dynamic regions today. The complexities of its transitioning markets make it an ideal laboratory for organization leaders to study.

Participants first visit Shanghai. With a long tradition of American, British, and French commercial presence, the city is quickly emerging as China's leading commercial harbor, as well as its manufacturing, style and financial center.

The participants also travel to Guangzhou and Guangdong Province to gain an understanding of China's manufacturing powerhouse. Visits to factories and exchanges with Chinese executives and professors provide opportunities for a deeper appreciation of the Chinese business, cultural and management environment.

The travel study program ends in Hong Kong, one of Asia's Tigers and one of the world's major transportation and financial centers.

Cultural excursions and informal sessions also introduce students to China's many perspectives on the United States and other foreign countries.
