

# STARTING COLLEGE

## during the COVID-19 pandemic

The worldwide COVID-19 pandemic has created a new reality for college students, especially when deciding where to enroll. Students likely have additional stresses as a result of the pandemic, and their mental health may be impacted as well.

Mount Saint Mary's University students considered their own learning and future career opportunities as very important reasons to go to college.

**84%**

To learn more about things that interest them

**88%**

To be able to get a better job

**80%**

To gain a general education and appreciation of ideas

**94%**

To get training for a specific career

While some MSMU students considered advice from others in their college selection process...

**13%**

Considered advice from a high school counselor as very important

**9%**

Considered advice from a teacher as very important

**9%**

Considered advice from a private college counselor as very important

...aspects of the college's reputation were more influential.

**74%**

Considered overall academic reputation very important

**71%**

Considered the academic reputation of their intended major very important

**39%**

Considered the reputation for social and extracurricular activities very important

MSMU students' emotional well-being remains a concern.

**96%**

Felt anxious in the past year

**70%**

Felt depressed in the past year

**13%**

Identify as having a psychological disorder

While the COVID-19 pandemic might impact which academic and extracurricular activities colleges can offer, MSMU students still plan to be engaged.

**88%**

Believe that there is at least some chance they will participate in students clubs/groups

**63%**

Believe that there is at least some chance they will study abroad

**33%**

Believe there is at least some chance they will join a fraternity or sorority
