*The Course Identification Numbering System (C-ID) is the common course numbering system used by the California Community Colleges. This numbering system provides a common identification of similar courses. Typically, these courses are lower division major preparation courses approved by UC and CSU campuses as meeting articulation standards. C-ID numbers are assigned to a specific transfer course and accompany existing local course numbers. To find the exact course at a specific California Community College, go to: <https://www.c-id.net/courses>.
