Developing ability to describe the roles of women, gender, and/or sexuality in society applying theory and appropriate research methodology.	Beginning ability to examine and interpret the roles of women, gender, and/or sexuality in society applying theory and appropriate research methodology.

Notes:

Proficient = they got it

Start with Proficient column, move to 4 if above or 2 if lacking

Rubric Development Process

The Women and Gender Rubric was developed collaboratively in Spring 2017 with the Curriculum Committee and the Assessment Committee, with additional input from the Center for the Advancement of Women. The rubric was revised slightly in March 2019 after faculty utilized the rubric to evaluate student work at the Women and Gender Rubric Scoring Party in December 2018.
