1. How many MSMU graduates have you employed at your school in the past 3 years (including current MSMU credential students working for you)? 5
2. Based on your experience with these teachers, how likely are you to hire more MSMU graduates? Please give a brief statement related to your response. I am more than likely to hire a MSMU graduate in the future.
3. What impacts have these teachers had on your school site/community? They are willing to be open to learning more and help in many ways at the school.
4. How can we do better? Is there anything we should change or add in our programming? Not at this time.

Hello,

Happy New Year and Blessings for a strong spring semester!

I know that it is very difficult for the two of you to attend our Friday meetings, and hope to still have some feedback from you. Our Branch ED work continues to look at what makes MSMU programs unique. In addition, the state Credentialing agency asks about the impact we are having on local schools. Thus, I am hoping to have you respond in two ways: 1) Please answer the 4 questions below to the best of your ability. 2) Please provide any feedback you may have to help us refine the questions or make this quick survey easier for our many Principals. And, if you have any ideas for what might motivate Principals to respond, let us know.

All the best and hope to see you soon!
