Course Description

This course introduces graduate scholars to the educational history of children and youth who are deaf or hard of hearing (DHH) and is designed to promote recognition and understanding of deaf related matters such as intolerance and harassment among students, based on awareness of the diverse cultural and linguistic identity and intersectionality among students. Topics include an introduction to Deaf culture the history of the education of people who are deaf, current research and trends, special education law, professional resources, and their application to the changing demographics of today's diverse students who are deaf.

Each lesson in the course constitutes a separate, discrete topic of importance in our field. Yet there is a definite overlap of influence and a historical thread which connects them all. The readings, websites, guest speakers and videos will provide students with an opportunity to learn from primary sources. Sources are research based and the student candidates will analyze and synthesize the information presented. Students will then use these source materials to complete their assignments, which are related to developing skills in helping children and youth who are deaf or hard of hearing in a broad spectrum of educational settings, with a range of etiologies, multiple disabilities, diverse cultures, and languages other than English. The course is also designed to meet standards for English Learners and children with Autism Spectrum Disorders. In addition, this course will introduce scholars to the related services associated with teaching children and youth with hearing loss. This course in no way represents a complete picture of any topic, but rather an introduction. Course materials are intended as resources for future professional growth.

Fieldwork: Candidates have a fieldwork commitment of 25 hours, which will include attending parent classes with parents from diverse cultures who have children with hearing loss and school visitations. In addition, candidates will interview parents/caregivers of a child with hearing loss focusing on the parent experience and will ask the question *“what can I do as a service provider to meet your needs as a parent/caregiver of a child with hearing loss?”*

Course Purpose

This course will meet the CCTC Preliminary – Education Specialist Standards for Deaf and Hard of Hearing teacher certification in special education. Assessment of Student Learning Outcomes: Student learning is at the core of the MSMU mission. Faculty and staff have developed a plan to assess the student learning outcomes that represent the knowledge, skills and attitudes expected of MSMU's graduate students. In each class, one or more student

learning outcomes will be assessed. Some of the class assignments may be used to evaluate overall student learning and to improve teaching and learning in each class, the Education Department, and throughout the University.

Course Outcomes Aligned with Standards: This course meets the standards for the following organizations in preparing teachers of children who are deaf or hard of hearing:

- MSMU Graduate Program Learning Goals and Student Learning Outcomes
- California Commission on Teacher Credentialing (CCTC) Standards:
 - Preliminary Credential: Education Specialist/Deaf & Hard of Hearing
- California Standards for the Teaching Profession (CSTPs)
- California Teaching Performance Expectations (TPEs)
- Council on Exceptional Children (CEC)
- Council on Education of the Deaf (CED)
