We now know that teaching social skills in school is just as important (if not MORE important) than teaching reading and writing. Today we will be looking at social skills instruction/SEL as class-wide, Tier I instruction:

1. Read the PDF from the University of Nebraska-Lincoln (link below)
2. Read and explore the resources at PBISWorld.com (link below)
3. Explore the Committee for Children website (link below), read about SEL and the Second Step program, and find free Second Step resources.
4. Outline a NO COST class-wide social skills lesson that can be taught in-person and virtually.

Include:

- Grade level
- Skill (Topic)
- Lesson objective
- Resources, including virtual platform(s)
- Teaching strategies
- Student activity(ies)

5. Record a video (3 min. max) in which you describe your lesson (include all components listed above)
6. Upload your outline
7. Respond to at least one classmate

Tip: Assume that everyone has computer/tablet and internet access
