Personality traits, interests & abilities:

The principal says that it unsafe for Mr. Potato Head to play on the playground or to be in a crowded area. As a result, these boundaries keep him from participating in play, class games, special events, or attending assemblies.

What factual information do you think create these school site boundaries?

How could you help increase the opportunities for Potato Head under this criteria? (In order to be respectful of everyone's opinion, avoid using the terms: must, should, always, never, expect, etc.)

What perceptions and contrasting ideas can you apply in order to safely offer more opportunities of inclusion to Mr. Potato Head?

Who would be included in the change process?

What tech could assist this student?

How will the environment be changed in order to meet student needs?

How will staff, admin, faculty, parents, etc. be informed?

What is the plan?

How will progress and the plan be assessed?
