

TPE 1.1

Discussion: The Impact of Trauma

Trauma can have a lifelong impact on people. Even one event can stay with someone for their entire lives, and have both **social and health consequences**.

Review the CDC resource **here**

(<https://www.cdc.gov/violenceprevention/acestudy/index.html>) about ACES, including the section on statistics and consequences **here**

(https://www.cdc.gov/violenceprevention/acestudy/fastfact.html?CDC_AA_refVal=https%3A%2F%2Fwww.cdc.gov%2Fviolenceprevention%2Fchildabuseandneglect%2Faces%2Ffastfact.html) . Using the mandatory articles and podcast from

this module, **consider how our students' behavior and health can be impacted by their past (or present). Draw connections to your classroom. How can you support your students' academic, personal, and behavioral successes?**

Optional: If you feel comfortable, you can find your own ACES score **here**

(<https://www.npr.org/sections/health-shots/2015/03/02/387007941/take-the-ace-quiz-and-learn-what-it-does-and-does-not-mean>) . You can include a conversation about this in your discussion, if you would like to, but this if by no means obligatory.

To receive full credit, you must cite evidence (with in-text citations) from the mandatory course readings/media, and synthesize information across multiple sources. NOTE: to receive full credit for this discussion, you must cite at least THREE difference course sources.
